

## JET-LOADER RONDO 300 VK with increased loading capacity

### Areas of Application:

The Stanelle JET-LOADER RONDO 300 VK is designed for the loading of silo vehicles and containers with free flowing, dry bulk materials. The wide range of applications includes the mining-, chemical- and pharmaceutical industries - even in the explosion-proof areas.

### Details / Explanation:

- Compact construction due to integrated winch motor with factory-set lift-limit switches, slack wire switch guided on a connector switch and filling level indicator
- Robust and abrasion protected, high operating security and maintenance friendly
- Perfectly centered bulk material stream
- Wear protected lift cords that are installed outside the bulk material flow
- Simple installation due to compact construction
- Filling level detection system
- Closure cone
- Loading filter ensures dedusting during silo loading process

### Accessories / Options:

- Dedusting with direct attached filter unit
- UL - Version for American Market
- ATEX Version
- Closure cone heater
- Vacuum flap
- Pneumatic internal cleaning

### Finish:

Material grade: Steel or stainless steel.  
Top coating with hammer tone silver gray  
(other colors available on request)

### Filling level indicator:

Vibration-Sensor for light to dusty and grainy bulk materials, up to 10 mm granulate size. Media temperature up to 130° C. Bulk material in Dusty-Ex range zone 20 and temperature range of -20° C to + 60° C.
